

Customer and Supplier Information

06. December 2019

"... thanks, you are welcomed..."

Dear Business Partner,

even if the Rhinelander already tends to exuberance, we may simply thank you for the first weeks together with the WUMAG TEXROLL.

All employees in Krefeld are fully committed to implementing the necessary adjustments to the organization. Some things with the implementation, such as at the network connections do not run as we thought. Since Germany is apparently a developing country in this respect and we hope for assistance "... from heaven up there I come from ...".

Thanks also and especially you dear customers, suppliers and business partners. With a certain pride for our colleagues in Krefeld, we take your loyalty and solidarity to the WUMAG TEXROLL and see ourselves strengthened in the concept of "continuation with a plan for success".

Many "old" customers contact us again: The customers seem to prefer to buy the original from WUMAG TEXROLL.

- We are pleased with the good order intake for the thin-walled drying cylinders and will soon also have completed the optimization of the production flow in Krefeld.
- The competence of Krefeld comes into play in large roller constructions.
- The customers are asking for the benchmark product in cylinder drying systems, which we will continue to develop with innovative approaches.

In that sense, allow us these remarks and express this confidence. But it also has the mission and commitment to meet your expectations. We work on that every day.

We wish you all the best for the new year and, hopefully, some relaxing days with your family and friends. We underline this using the ABBA song having the refrain "Happy New Year; May we all have a vision now and then; Of a world where every neighbor is a friend".

We are happy to be your neighbors.

Sincerely your WUMAG TEXROLL Team from Krefeld.

P.S. : The second page is identical to the first newsletter. We just added them again.
